CORRECTION

Correction: Virtual Morality: Transitioning from Moral Judgment to Moral Action?

Kathryn B. Francis, Charles Howard, Ian S. Howard, Michaela Gummerum, Giorgio Ganis, Grace Anderson, Sylvia Terbeck

There is an error in [Table 3](#). The beta coefficients (B) for the constant and trait are incorrectly swapped. The authors have provided a corrected table here.

Table 3. Logistic regression with Honesty-Humility as predictor

		B (SE)	95% CI for Odds Ratio		
			Lower	Odds Ratio	Upper
Included					
Constant		1.19 (0.67)			
HEXACO					
	H	-2.53* (1.27)	0.07	0.08	0.97

Note: H = Honesty-Humility. $R^2 = .25$ (Hosmer & Lemeshow), $.26$ (Cox & Snell), $.37$ (Nagelkerke). Model $\chi^2(1) = 6.01$, $p = .01$.

* $p = .05$. (SE) = standard error.
